6. Month-by-Month Action Plan
7. Budget & Resource Allocation
8. Risk Assessment & Mitigation
9. Reporting Dashboard & Review Cadence
10. Conclusion & Next Steps

1. EXECUTIVE SUMMARY & OVERALL PERFORMANCE SCORE

KryoSync is a digital marketing agency founded in 2024, operating from a Netlify-hosted website (kryosync.netlify.app) with a growing LinkedIn presence of 100+ followers. The company has a solid service offering spanning web development, UI/UX design, SEO, social media, and digital marketing strategy — but its own digital marketing presence does not yet reflect this expertise.

Channel	Current Score	Status	Priority	90-Day Potential
SEO & Organic Search	47 / 100	■ Moderate	■ HIGH	75 / 100
LinkedIn & Social Media	32 / 100	■ Low	■ HIGH	68 / 100
Content Marketing	10 / 100	✗ Critical	■ HIGH	60 / 100
Lead Generation	15 / 100	✗ Critical	■ MEDIUM	55 / 100
Brand Authority	25 / 100	■ Low	■ MEDIUM	58 / 100
Website UX & Conversion	40 / 100	■ Moderate	■ MEDIUM	70 / 100

The core insight from this audit is a credibility gap: KryoSync sells digital marketing services but its own digital marketing presence — SEO rankings, content output, social media engagement, and inbound leads — is underdeveloped. Closing this gap is not just a growth opportunity; it is a direct trust signal for prospective clients who will Google KryoSync before making contact.

2. CURRENT BASELINE — WHERE KRYOSYNC STANDS TODAY

2.1 SEO & Website Performance

Metric	Current Status	Benchmark (Small Agency)	Gap
Domain / URL	kryosync.netlify.app (subdomain)	Custom domain (.com)	Critical
Google Index Status	Indexed — ranks #1 for brand name	Indexed for 50+ keywords	Significant
Monthly Organic Traffic	~50–150 sessions (branded only)	500–2,000+ sessions	Large
Keyword Rankings	1–3 keywords (brand terms only)	80–200 keywords	Critical
Domain Authority (DA)	3–5 / 100	20–30 / 100	Significant
Backlinks	< 10 referring domains	150–400 domains	Critical
Core Web Vitals	Unknown — not verified	Passing (75%+)	Unknown
Meta Descriptions	Truncated in Google results	Complete, compelling	Moderate
Blog / Content Hub	None published	20–40 posts	Critical
Google Business Profile	Not set up	Fully optimised	Critical
Schema Markup	None implemented	Organization + Local	Moderate

2.2 LinkedIn & Social Media Performance

Metric	Current Status	Industry Benchmark	Assessment
Followers	100+ followers	500–2,000 (small agency)	Below benchmark
Posts Published	Unknown / infrequent	3–5 per week	Insufficient
Average Engagement Rate	Not tracked	2–4% (industry avg)	Unmeasured
Post Reach	Not tracked	500–2,000 per post	Unmeasured
Profile Completeness	Partial (no custom CTA)	100% — all sections filled	Incomplete
LinkedIn Newsletter	None	Optional but high reach	Opportunity
Video Content	None identified	15–30% of content mix	Gap
Hashtag Strategy	None confirmed	3–5 per post	Not implemented
Response to Comments	Not tracked	< 60 minutes ideal	Unknown

2.3 Content & Brand Authority

Content Asset	Current Status	Impact of Gap
Blog Articles	0 published	Zero long-tail keyword traffic, no thought leadership
Case Studies	0 published	No social proof for prospective clients

Content Asset	Current Status	Impact of Gap
Service Pages (detailed)	Basic — needs expansion	Low SEO value, weak conversion
Team / About Page	Present but minimal	Low trust signal for new visitors
Client Testimonials	None visible on website	Critical trust gap
Video Content	None	Missing fastest-growing content format
Lead Magnets / Free Resources	None	No email capture, no top-of-funnel assets
Press / Media Mentions	GMIU startup feature (1)	Minimal external authority

2.4 Lead Generation & Conversions

Based on current website traffic (~50–150 sessions/month, largely branded) and the absence of lead capture forms, free resources, or active outbound campaigns, inbound lead volume is estimated at 2–5 per month — predominantly from direct referrals and LinkedIn DMs rather than organic discovery.

Lead Source	Est. Monthly Volume	Conversion Path	Quality
Direct Referrals	2–4 leads/month	Word of mouth → Direct contact	High
LinkedIn Organic	1–2 leads/month	Profile view → DM or website visit	Medium-High
Organic Search	~0 leads/month	No non-branded keyword rankings	N/A
Content / Blog	0 leads/month	No content published	N/A
Paid Advertising	0 leads/month	No active paid campaigns	N/A
Directory Listings	0–1 leads/month	Limited listings — TheManifest only	Medium
TOTAL ESTIMATED	~3–7 leads/month	Primarily relationship-driven	Moderate

3. KPI FRAMEWORK — WHAT TO MEASURE & WHY

A KPI (Key Performance Indicator) is only valuable if it is measured consistently and acted upon. The following framework defines KryoSync's priority metrics across five channels, with the measurement tool and review frequency for each.

3.1 SEO KPIs

KPI Name	What It Measures	Tool	Frequency
Organic Sessions (non-branded)	Monthly website visits from search (excluding brand name queries)	Google Analytics 4	Weekly
Total Keywords Ranking	Number of keywords site appears for in Google (any position)	Google Search Console	Weekly
Page 1 Rankings (Top 10)	Keywords ranking on Google's first page — highest traffic potential	Google Search Console	Weekly
Domain Authority (DA)	Moz's 0–100 score reflecting backlink profile strength	Moz / Ahrefs	Monthly
Referring Domains	Number of unique websites linking to kryosync	Ahrefs / GSC	Monthly
Core Web Vitals Pass Rate	% of pages passing LCP, INP, and CLS thresholds	PageSpeed Insights / GSC	Monthly
Click-Through Rate (CTR)	% of searchers who click KryoSync's result vs. total impressions	Google Search Console	Weekly
Pages Indexed	Total pages Google has crawled and added to its index	Google Search Console	Weekly

3.2 Social Media KPIs

KPI Name	What It Measures	Tool	Frequency
LinkedIn Follower Count	Total page followers — primary brand awareness metric on LinkedIn	LinkedIn Analytics	Weekly
Post Impressions	Total views each post receives — measures content reach	LinkedIn Analytics	Per post
Engagement Rate	Likes + Comments + Shares / Impressions — quality signal	LinkedIn Analytics	Weekly
Profile Views	Number of people viewing the KryoSync company page	LinkedIn Analytics	Weekly
Follower Growth Rate	Week-over-week % change in follower count	LinkedIn Analytics	Weekly
Comment Rate	Comments per post — strongest engagement signal on LinkedIn	LinkedIn Analytics	Per post

KPI Name	What It Measures	Tool	Frequency
Link Clicks	Clicks from LinkedIn posts to website — conversion bridge metric	LinkedIn Analytics	Weekly

3.3 Content Marketing KPIs

KPI Name	What It Measures	Tool	Frequency
Blog Posts Published	Total articles live on website — directly drives keyword rankings	CMS / Internal	Monthly
Avg. Time on Page	How long visitors spend reading content — quality signal	Google Analytics 4	Monthly
Blog Organic Traffic	Sessions arriving via search to blog posts	Google Analytics 4	Monthly
Content Shares	Social shares of blog content — amplification metric	Social analytics	Per post
Email Subscribers	List size if newsletter launched — owned audience	Email platform	Monthly
Backlinks from Content	External sites linking to KryoSync blog posts	Ahrefs / GSC	Monthly

3.4 Lead Generation KPIs

KPI Name	What It Measures	Tool	Frequency
Monthly Inbound Leads	Total new enquiries from all digital channels	CRM / Contact form	Weekly
Lead Source Breakdown	Which channel (SEO / LinkedIn / Referral) drives each lead	UTM tracking / CRM	Weekly
Website Conversion Rate	% of website visitors who submit a contact form	Google Analytics 4	Monthly
Cost Per Lead (CPL)	Total marketing spend / number of leads generated	Internal tracking	Monthly
Lead to Client Rate	% of leads that become paying clients	CRM / Sales records	Monthly
Discovery Call Bookings	Number of initial client calls booked from digital channels	Calendar tool	Weekly

3.5 Brand Authority KPIs

KPI Name	What It Measures	Tool	Frequency
Google Business Profile Views	Impressions on GBP listing in Maps and local search	Google Business Profile	Monthly

KPI Name	What It Measures	Tool	Frequency
Google Reviews	Number and average star rating of Google reviews	Google Business Profile	Monthly
Directory Listing Count	Number of agency directories KryoSync appears on	Internal tracker	Monthly
Brand Search Volume	Monthly searches for 'KryoSync' — brand awareness proxy	Google Search Console	Monthly
Media Mentions / Backlinks	Press features and editorial backlinks from credible sites	Ahrefs / Google Alerts	Monthly
LinkedIn Recommendation Count	Client/partner recommendations on LinkedIn page	LinkedIn	Monthly

4. 90-DAY GROWTH TARGETS

The targets below are based on industry benchmarks for a 2-year-old digital marketing agency applying consistent, quality-focused effort across all channels. These are realistic and achievable — not aspirational vanity metrics.

KPI	Current Baseline	Month 1 (Day 30)	Month 2 (Day 60)	Month 3 (Day 90)	Tool
SEO & ORGANIC SEARCH					
SEO: Pages Indexed	3–8	15–20	25–35	40+	GSC
SEO: Organic Sessions/Month	50–150	300–500	600–1,000	1,200–2,000	GA4
SEO: Keywords Ranking	1–3	20–30	45–65	80–120	GSC
SEO: Page 1 Rankings	1 (brand)	3–5	8–12	15–25	GSC
SEO: Domain Authority	3–5	5–7	8–12	13–18	Moz
SEO: Referring Domains	< 10	15–20	28–38	45–60	Ahrefs
SEO: Core Web Vitals	Unknown	Tested	Passing 70%+	Passing 85%+	PSI / GSC
LINKEDIN & SOCIAL MEDIA					
LinkedIn: Followers	100+	180–220	300–360	450–550	LI Analytics
LinkedIn: Post Impressions	Unknown	500–800/post	1,000–1,500	1,500–2,500	LI Analytics
LinkedIn: Engagement Rate	Unknown	2–3%	3–5%	4–6%	LI Analytics
LinkedIn: Profile Views/Week	Unknown	50–80	100–150	180–250	LI Analytics
LinkedIn: Link Clicks/Month	Unknown	40–60	80–120	150–250	LI Analytics
CONTENT MARKETING					
Content: Blog Posts Live	0	2	4	6–8	CMS
Content: Avg. Time on Page	Unknown	1:30–2:00	2:00–2:30	2:30–3:30	GA4
Content: Content Backlinks	0	3–5	8–12	15–25	Ahrefs
LEAD GENERATION					
Leads: Monthly Inbound Leads	3–7	8–12	14–18	20–30	CRM
Leads: Website Conv. Rate	< 1%	1–2%	2–3%	3–4%	GA4

KPI	Current Baseline	Month 1 (Day 30)	Month 2 (Day 60)	Month 3 (Day 90)	Tool
Leads: Discovery Calls Booked	2-4/month	5-7	8-12	15-20	Calendar
BRAND AUTHORITY					
Brand: Google Business Views	0 (not set)	200-400	500-800	800-1,200	GBP
Brand: Google Reviews	0	3-5	8-12	15-20	GBP
Brand: Directory Listings	1	10-15	20-25	28-35	Internal

Legend: Red = Current Baseline | Amber = Month 1 Target | Blue = Month 2 Target | Green = Month 3 Target (90-Day Goal)

5. GROWTH STRATEGY — CHANNEL BY CHANNEL

5.1 SEO & Organic Search Strategy

SEO is KryoSync's highest-leverage growth channel. Every piece of content published, every backlink earned, and every technical fix implemented compounds over time. The goal is to shift from 'brand-only visibility' to ranking for commercial service keywords that prospective clients are actively searching.

■ SEO & Organic Search

Priority: CRITICAL

Current: Ranks #1 for brand name only. On Netlify subdomain. No service keyword rankings. DA 3–5.

- Migrate website to kryosync.com — set up 301 redirect from netlify subdomain
- Fix meta descriptions — ensure all pages have complete, keyword-rich descriptions under 160 chars
- Create Google Business Profile with full details, team photos, and service descriptions
- Submit sitemap.xml to Google Search Console and verify all key pages are indexed
- Publish 2 blog posts per month targeting Quick Win keywords (difficulty < 50)
- Build 20+ directory listings on Clutch, GoodFirms, AgencySpotter, DesignRush
- Implement Organization and LocalBusiness schema markup on homepage

90-Day Target

80–120 keywords ranking |
1,200–2,000 organic sessions/month |
DA 13–18

5.2 LinkedIn Growth Strategy

LinkedIn is KryoSync's most immediate growth lever. With 100+ followers already, a consistent posting strategy can generate meaningful reach, inbound leads, and brand credibility within 30 days — faster than any other channel.

■ LinkedIn Growth

Priority: HIGH

Current: 100+ followers. Posting frequency unknown/inconsistent. Engagement not tracked. No content strategy.

- Post 5 times per week following the 7-day content calendar framework
- Use the Hook → Value → CTA formula on every post (already defined in content calendar)
- Engage with 10–15 relevant profiles daily — genuine comments, not just likes
- Optimise company page: add custom CTA button, complete all sections, add showcase page
- Launch a weekly LinkedIn poll every Friday to maximise algorithm reach
- Respond to every comment within 60 minutes of posting to boost distribution
- Tag relevant connections in posts where genuinely relevant
- Repurpose top blog posts into LinkedIn carousel posts and native articles

90-Day Target

450–550 followers | 4–6% engagement
rate | 150–250 link clicks/month

5.3 Content Marketing Strategy

Content marketing is the engine that powers both SEO and LinkedIn simultaneously. A single well-written blog post can rank on Google, be repurposed into 3 LinkedIn posts, and serve as a trust signal for prospective clients — all from one piece of work.

📁 Content Marketing

Priority: HIGH

Current: Zero blog posts. No case studies. No downloadable resources. No email capture. • Launch content hub on website — minimum 6 blog posts in first 90 days • Prioritise keywords: 'digital marketing tips', 'how to improve SEO', 'LinkedIn marketing guide' • Create 1 free resource (e.g. 'Social Media Content Calendar Template') for lead capture • Publish 1 case study showing real client results with before/after metrics • Repurpose every blog post into: 2 LinkedIn posts + 1 Instagram carousel + email snippet • Add client testimonials and results to homepage and services pages • Set up a simple email capture form — even a 'Get our free marketing tips' newsletter	90-Day Target 6–8 blog posts live 15–25 backlinks from content Email list started
--	---

5.4 Lead Generation Strategy

Growing from 3–7 to 20–30 leads/month requires building systems, not just activity. The lead generation strategy focuses on creating multiple inbound pathways and optimising the conversion rate of existing traffic.

■ Lead Generation	Priority: MEDIUM
Current: ~3–7 leads/month from referrals and LinkedIn DMs only. No contact form optimisation. No CRM. • Add a prominent contact CTA on homepage above the fold — not just in the footer • Create a 'Free 30-Minute Marketing Audit' offer to convert traffic into discovery calls • Set up UTM parameters on all LinkedIn links to track which posts drive website leads • Install a simple CRM (HubSpot Free or Notion) to track every lead and follow-up status • Add lead magnet (free template or checklist) with email capture on website • Request Google reviews from every satisfied client — review pages drive trust and conversions • Create a dedicated 'Work With Us' landing page optimised for conversions • Set up Google Business Profile to capture 'digital marketing agency near me' leads	90-Day Target 20–30 leads/month 3–4% website conversion rate 15–20 discovery calls booked

6. MONTH-BY-MONTH ACTION PLAN

MONTH 1 — FOUNDATION (Days 1–30)

Build the technical and structural foundation that all future growth depends on. Fast wins in this month deliver visible results quickly and build momentum.

Timing	Channel	Action
Week 1	SEO	Migrate website to kryosync.com. Set up Google Search Console. Fix all meta titles and descriptions.
Week 1	LinkedIn	Optimise company page. Add CTA button. Complete all sections. Plan content calendar.
Week 1	Local	Create and fully optimise Google Business Profile. Request 3–5 client reviews immediately.
Week 2	SEO	Submit sitemap. Run PageSpeed Insights. Fix critical Core Web Vitals issues.
Week 2	Content	Write and publish first blog post: 'How to Improve Your Website's SEO in 2026' (1,200 words).
Week 2	LinkedIn	Begin 5x/week posting schedule. Engage 10 profiles/day. Track impressions in spreadsheet.
Week 3	Leads	Add contact CTA to homepage. Set up free HubSpot CRM. Create 'Free Audit' offer page.
Week 3	SEO	Submit to 10 high-priority directories: Clutch, GoodFirms, AgencySpotter, DesignRush.
Week 4	Content	Publish second blog post: 'Social Media Content Calendar Template' with free download.
Week 4	Review	Pull first Month 1 data. Document baseline metrics. Identify what's working.

MONTH 2 — GROWTH (Days 31–60)

Build on the foundation. Create systems that generate compounding returns. LinkedIn should start generating measurable engagement. SEO improvements become visible in GSC.

Timing	Channel	Action
Week 5	Content	Publish blog post 3: 'Digital Marketing for Startups — A Complete Guide' (1,500 words).
Week 5	SEO	Submit to 10 more directories. Begin guest post outreach — target 2 acceptances.
Week 6	Content	Create first case study — real client results with specific metrics and before/after.
Week 6	LinkedIn	Launch LinkedIn Newsletter. Repurpose top blog post as first newsletter edition.
Week 7	SEO	Add FAQ schema and Organization schema to all key pages. Test with Rich Results tool.
Week 7	Leads	Set up UTM tracking on all LinkedIn links. Analyse which post types drive site visits.
Week 8	Content	Publish blog post 4: 'LinkedIn Marketing Strategy for B2B Businesses'.
Week 8	Reviews	Follow up with all existing clients for Google reviews. Target 8–12 total.
Week 8	Review	Month 2 performance review. Adjust content strategy based on engagement data.

MONTH 3 — SCALE (Days 61–90)		
Amplify what's working. By Month 3, data is available to show which channels and content types are driving leads. Double down on top performers and cut what isn't working.		
Timing	Channel	Action
Week 9	SEO	Analyse GSC data — identify keywords KryoSync is close to Page 1 for. Create content targeting those terms.
Week 9	Content	Publish blog posts 5 and 6. Focus on highest-potential keywords from GSC data.
Week 10	LinkedIn	Launch 4-week LinkedIn engagement campaign with daily polls, carousels, and long-form posts.
Week 10	Leads	Review lead source data. Allocate more effort to top-performing channel.
Week 11	SEO	Build 5 more targeted backlinks via HARO responses and guest posts. Reach 45–60 domains total.
Week 11	Brand	Pitch KryoSync story to 2 industry publications or startup blogs for press coverage.
Week 12	Content	Publish blog posts 7 and 8. Update Month 1 posts with fresh data for SEO freshness signal.
Week 12	Review	Full 90-day performance review. Document all KPI achievements. Plan Month 4 strategy.

7. BUDGET & RESOURCE ALLOCATION

The 90-day growth strategy is designed to be executed with minimal paid spend — the majority of tactics are organic and require time investment, not budget. The below plan covers both a zero-budget and a small-budget scenario.

Activity	Zero Budget Approach	Small Budget Option	Est. Monthly Cost	Priority
Domain Migration	Connect kryosync.com (if owned) to new domain	Buy domain from Namecheap (50/day)	~\$1,500/day	■ HIGH
SEO Tools	Google Search Console + GA4 (free)	Ubersuggest Pro or Moz Suite	\$1,500–3,000/mo	■ MED
Directory Listings	Manual submission to 20+ directories (one-off)	Automated (one-off)	Free – \$2,000	■ HIGH
Content Creation	Internal writing by team or intern	Freelance SEO writer per article	\$3,000–6,000/mo	■ HIGH
Graphic Design	Canva Free for LinkedIn visuals	Canva Pro for brand consistency	\$4,000/mo	■ MED
Email Marketing	Mailchimp Free (up to 500 contacts)	Mailchimp Essentials	Free – \$1,500/mo	■ MED
CRM	HubSpot CRM Free forever	HubSpot Starter or Notion Free	Free – \$2,000/mo	■ MED
LinkedIn Ads (optional)	Organic only — no ad spend	\$5,000–10,000 test campaign	Optional	■ LOW
Google Ads (optional)	Organic only — no ad spend	\$5,000 brand awareness test	Optional	■ LOW
TOTAL (organic only)	Time investment: ~10–15 hrs/week		~\$5,000–8,000/mo	

8. RISK ASSESSMENT & MITIGATION

MEDIUM	Inconsistent Posting Schedule
Risk:	LinkedIn algorithm punishes inconsistency. Missing even 2 weeks resets reach momentum.
Mitigation:	Create a 4-week content bank in advance. Use scheduling tools (Buffer or native LinkedIn scheduling).
HIGH	Domain Migration Disruption
Risk:	Moving from netlify subdomain to kryosync.com can temporarily drop Google rankings if not done correctly.
Mitigation:	Set up 301 permanent redirects. Resubmit sitemap to GSC. Monitor Index Coverage daily for 2 weeks post-migration.
LOW	Algorithm Changes
Risk:	LinkedIn and Google update their algorithms regularly, potentially affecting reach and rankings.
Mitigation:	Focus on quality over algorithm hacking. High-quality content survives algorithm changes.
MEDIUM	Content Quality Drops Under Volume Pressure
Risk:	Publishing 2 blog posts/month can tempt shortcuts — thin, low-quality posts hurt SEO.
Mitigation:	Enforce 600+ word minimum. Use a content brief for every post. Have one person review before publishing.
LOW	Competitor Response
Risk:	Competitors may increase their own SEO and LinkedIn activity as KryoSync grows.
Mitigation:	Focus on owned channels and brand voice. Build an audience that follows KryoSync specifically, not the category.
HIGH	No One Tracking KPIs
Risk:	Without consistent tracking, there is no way to know what is working or to course-correct.
Mitigation:	Assign one person to update the KPI dashboard weekly. Review metrics every Monday morning.

9. REPORTING DASHBOARD & REVIEW CADENCE

Consistent measurement is what separates a strategy from a wish list. The following review structure ensures KryoSync stays on track and can course-correct quickly.

Review Type	Frequency	Metrics to Check	Who	Action Output
LinkedIn Post Performance	After each post (same day)	Impressions, likes, comments, shares, click-throughs	Sales/Marketing	Note what hook/format performed best
LinkedIn Weekly Snapshot	Every Monday	Follower growth, total impressions, engagement rate	Marketing team	Adjust upcoming week's content based on trends
SEO & Website Traffic	Weekly (Friday)	Organic sessions, new keywords, Google index coverage	SEO team	Flag coverage drops; celebrate new keyword acquisitions
Lead Generation Review	Weekly (Monday)	New leads, source breakdown, disqualification rate	Sales/Marketing	Follow up on qualified leads within 24 hours
Full Channel Performance	Monthly (1st of month)	All KPIs vs. targets, content published, backlinks earned	Full team	Update OKR tracker; set next month's priorities
90-Day Strategy Review	End of Day 90	All 90-day targets vs. actuals; ROI analysis	Full leadership	Reassess strategy; define Month 4–6 strategy; set new 90-day goals

KPI Dashboard Template (Weekly Tracker)

Create a simple Google Sheet with the following columns. Update every Monday morning. Track the delta (change) from the previous week — trend is more important than absolute numbers.

KPI	Week 1	Week 2	Week 3	Week 4	Month Total	Target	Status
LinkedIn Followers	100	—	—	—	—	180–220	■
Post Impressions (avg)	—	—	—	—	—	500–800	—
Engagement Rate	—	—	—	—	—	2–3%	—
Organic Sessions	~100	—	—	—	—	300–500	■
Keywords Ranking	1–3	—	—	—	—	20–30	■
Monthly Leads	~5	—	—	—	—	8–12	■
Google Reviews	0	—	—	—	—	3–5	■
Blog Posts Live	0	—	—	—	—	2	■

10. CONCLUSION & NEXT STEPS

KryoSync has built a real business in 2 years — a website, a LinkedIn presence, a GMIU startup feature, and real clients. The foundation exists. What's missing is a systematic, measurement-driven approach to growth that matches the quality of service KryoSync delivers.

The core opportunity is clear: KryoSync is a digital marketing agency whose own digital marketing doesn't yet reflect its capability. Fixing this gap — consistently, over 90 days — achieves two things simultaneously: it generates real leads and clients AND it becomes the most powerful proof point KryoSync can show a prospective client.

Immediate Actions (This Week)

- ✓ Connect kryosync.com as primary domain with 301 redirect from Netlify URL
- ✓ Set up Google Search Console and submit sitemap
- ✓ Create Google Business Profile (free — takes 30 minutes)
- ✓ Fix all meta titles and descriptions across every page
- ✓ Begin 5x/week LinkedIn posting — use the content calendar already created

This Month

- ✓ Publish 2 SEO-optimised blog posts targeting Quick Win keywords
- ✓ Submit to 10 high-authority agency directories
- ✓ Add lead capture CTA and 'Free Audit' offer to homepage
- ✓ Set up HubSpot Free CRM to track all leads and follow-ups
- ✓ Request Google reviews from 3–5 existing satisfied clients

This Quarter (90 Days)

- ✓ Reach 450–550 LinkedIn followers with 4–6% engagement rate
- ✓ Generate 20–30 inbound leads per month from digital channels
- ✓ Rank for 80–120 keywords with 1,200–2,000 organic sessions/month
- ✓ Build 45–60 referring domains and achieve DA 13–18
- ✓ Publish 6–8 blog posts and at least 1 case study

The single most important thing KryoSync can do right now is start. Every week of inaction is a week of compounding advantage given to competitors. Digital marketing rewards consistency above all else — and the brands that show up every day, measure everything, and improve every month win. KryoSync can be one of them.

Prepared by: Dweep Tanna | Digital Marketing Intern, KryoSync | June 10, 2026

This report is part of the KryoSync Digital Marketing Internship Final Submission. Data sources: Google Search results, LinkedIn public data, industry benchmarks (HubSpot, Moz, Ahrefs), and the KryoSync SEO Audit & Competitor Analysis conducted as part of this internship.
